

GolfPro 300 Greens Roller

Available :- 200 / 300 Kg.

General Features

Offset Independent rollers for improved Contour Following and reduced striping

Wide turning radius helps minimise scuffing and turf damage

Easy to operate foot pedals control the speed of side to side operation

Converting from operating to transport mode can be done by one person without tools

Easily adjustable seat does not affect the weight distribution of the machine, ensuring even rolling, regardless of the operator.

Shall provide maximum traction and efficiency in morning dew condition.

It shall be capable of working in normal Indian Railways Workshop Environment with maximum ambient temperature up to 50 deg C and maximum relative humidity up to 98%.

Greens Roller

GolfPro 300

MODEL	GolfPro 300
Engine specification	Honda GX 200 , 5.5 HP air cooled, 4 Storke OHV, Mechanically governed
Fuel	Unleaded Petrol
Transmission	Hydro gear PG Pump or equivalent make
Drive	Parking hydraulic motor or danfoss make for drive Roller
Smoothing Roller	87.5 mm (3.44") diameter -4 split rollers, overlapping twin steering heads.
Traction drive Roller	183.9 mm (7.24") diameter vulcanized rubber coated cylinder, 80 cm (31.5") long.
Rolling Width	120 cm (47.2")
Ground Speed	Roll : 0-12.8 km/hr (0-8 mph) in either direction
Controls	Tilt Steering wheel, directional foot pedals, parking breaks.
Contour follow	Yes
Groud Pressure	0.26 bar (3.75 psi)
Steering	Wheel adjustable tilt to 40 deg
Seat	High back, adjustable
Trailer	Integrated with quick latch towing system
Lifiting tires	16-6.50-8
Lifiting tires pressure	1.03 bar (15 PSI)
